

## Notes

- Getting from intergroup cognition to intergroup motivation. Reference Tajfel or Turner.
- Fearon and Laitin: they have a folk theorem setup where cooperation is sustained by fear of punishment. We have group reciprocity.
- IGS models.
- We want to explain interethnic cooperation. Similar to Fearon and Laitin, but different mechanism.

## Structure

- Motivation: intergroup motivations from intergroup cognition. Tajfel and/or Turner.
- We also contribute to other literatures:
  - Evolution of cooperation, indirect reciprocity, Boyd and Richerson upstream/downstream.
  - Interethnic cooperation, Fearon and Laitin.
- Rationale of the model, highlight key insight.
- Model.
- Simulations to extend the model?
- Conclusion.
